Additional Charges and Fees

| Type | Description |
|------------------------|-------------|
| Commissions to Advisor | None |
| Performance-Based Fees | None |

Effective Date: January 1, 2025

Notes:

- If the combined account value is less than \$300,000, an annual flat charge of \$3,000 will be assessed at the quarterly rate of \$750. The appropriate percentage charge will apply if the combined account value exceeds \$350,000. See the example below for calculations.
- The advisory charge is a tiered charge calculated by assessing the percentage rate and **applying it to the daily average account value over the quarter**. Accounts initiated or terminated during a calendar quarter will be prorated based on the amount of time in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since charges are paid in arrears, no refund will be needed upon the termination of the account. See examples below for full quarter calculation.
- The advisory charge is a tiered charge calculated by assessing the percentage rate and **applying it to the account value as of the last day of the quarter**. See examples below for full quarter calculation.
- To accommodate start-up employee benefit plans, we will charge a minimum flat charge of \$625 per quarter (\$2,500 annually) paid directly by the plan sponsor until assets reach a total balance of \$500,000, at which point the charges revert to the above schedule.
- Retirement Plan Consulting services charges are according to the value of plan assets, not exceeding 2% of total plan assets.
- We will not bill an amount above \$500 more than 6 months in advance.

Examples for Calculations:

- Wealth Management Services**
 - Combined Account Market Value: \$50,500
